SkillSync: A Job Marketplace Platform for Bangladesh

 by Nushrat Afroz

Project Summary

SkillSync

This is a web platform created for students, new graduates and freelancers in Bangladesh.

Vision

To create a bridge between local talent and employers in Bangladesh's growing digital economy.

Problem Description

Challenges for Students

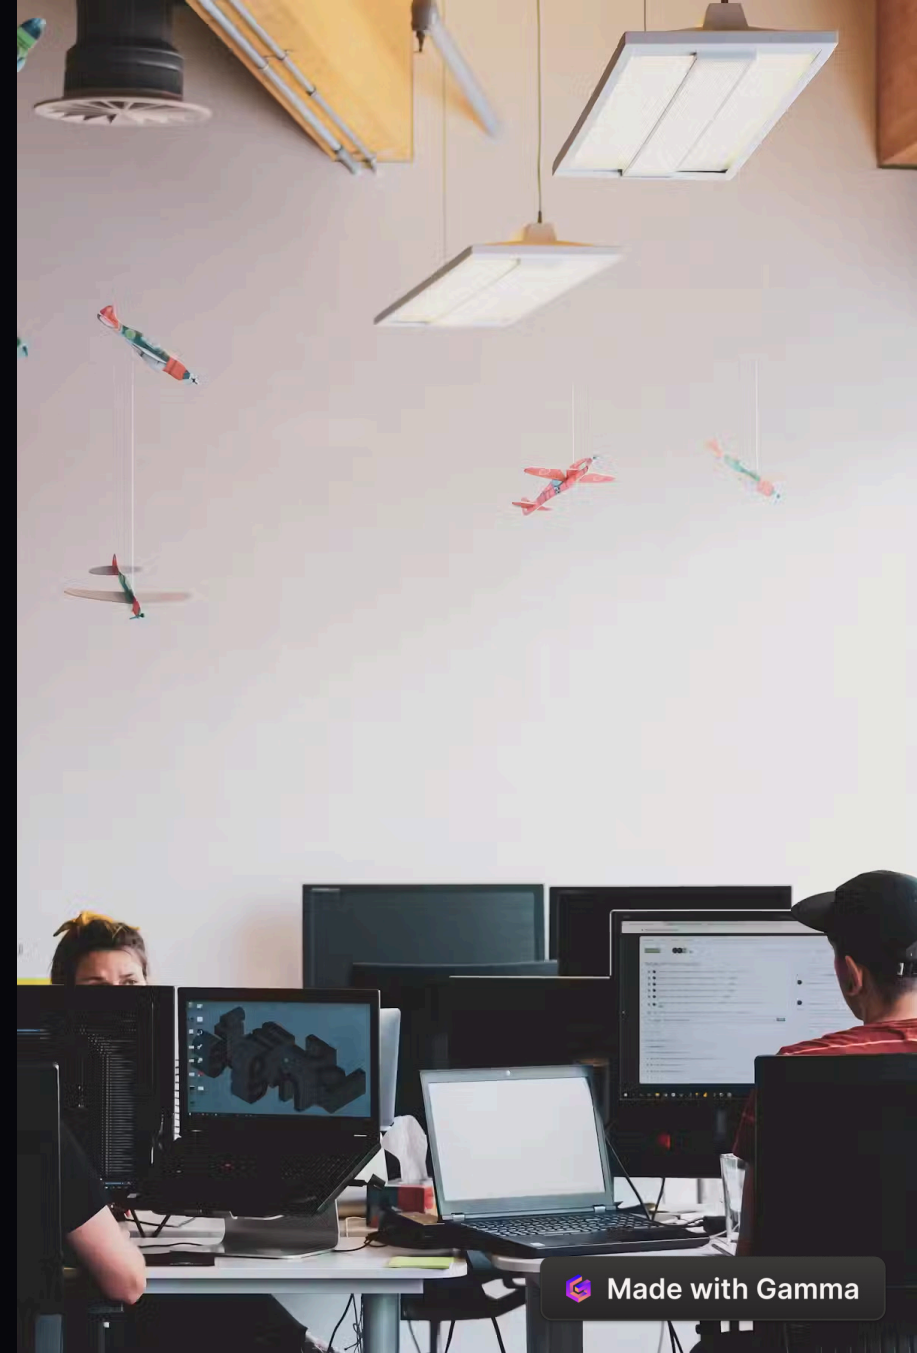

Difficulty for students and newcomers in finding jobs.

Challenges for Employers

Struggle for employers to find suitable local talent.

Lack of Central Platform

Absence of a centralised platform for skill-based work in Bangladesh.

Our Solution: SkillSync

Connecting

Connects job seekers with relevant opportunities.

Access

Provides employers access to a pool of local talent.

Community

Creates a professional community focused on skill development.

Target Users

1

Job Seekers

Students, graduates, freelancers and professionals.

2

Employers

Local businesses, start-ups, companies and independent entrepreneurs.

Core Features

1

Smart Job Matching

Connects candidates to opportunities using skill-based algorithms.

2

Comprehensive Profile

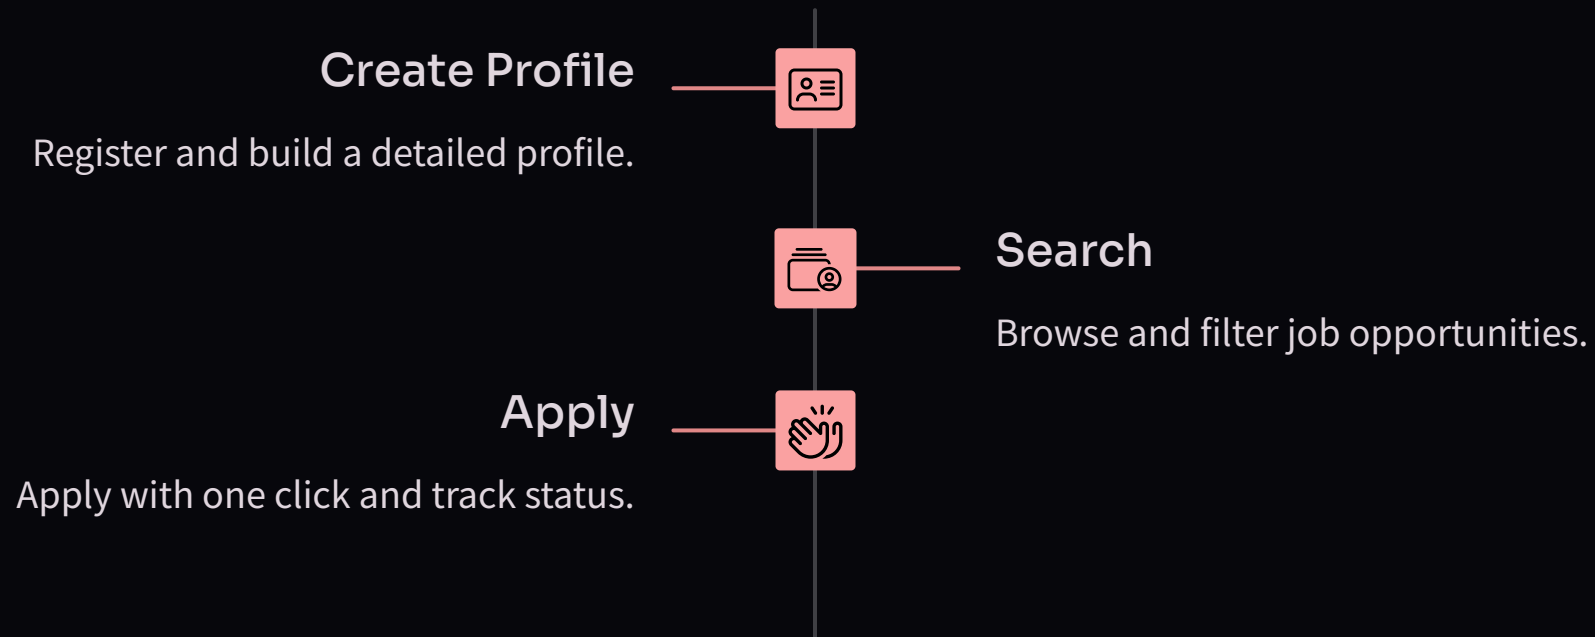

Showcases skills, experience and qualifications.

3

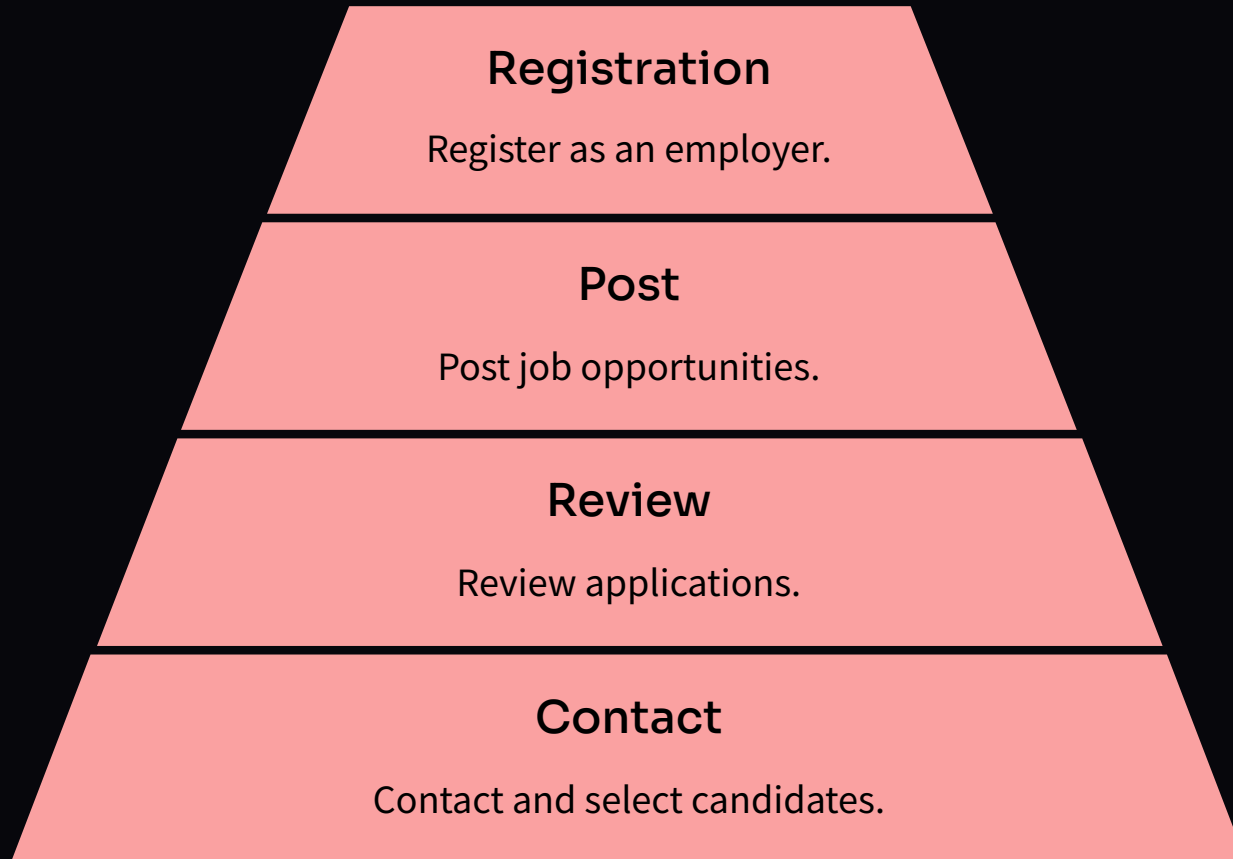

Application Process

One-click application submission and status tracking.
